

**DISASTER  
RELIEF  
AUSTRALIA**

# **FIELD CAPABILITIES AND OPERATIONS**

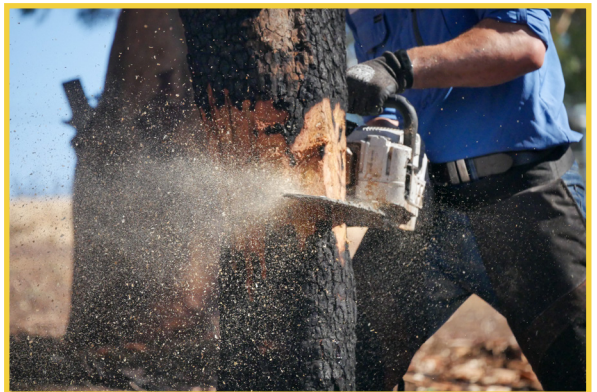

## FIELD OPERATIONS AND CAPABILITIES

Disaster Relief Australia (DRA) unites the skills and experience of Australian Defence Force veterans with emergency service specialists to rapidly deploy volunteer disaster relief teams in Australia and around the world in the wake of disasters.

By combining our modern military technology with emergency and disaster management best practice, DRA operations are at the cutting edge of disaster relief. Veterans possess skills and experience that define an excellent responder and DRA offers a unique opportunity to be a part of humanitarian efforts with a mission and intensity similar to military service.

Including:

- Incident Management
- Aerial Damage Assessments and Mapping
- Damage and Impact Assessments
- Work Order Management
- Building Resilience and Capacity
- Spontaneous Volunteer Management
- Debris Management and Restoring Access
- Expedient Home Repairs
- Logistics Management and Humanitarian Aid Delivery

## DISASTER RELIEF TEAMS

DRA has a volunteer disaster relief team (DRT) based in every state and territory across Australia with plans to grow from the current 9 teams to 12 by 2024.

Our volunteers are all linked to their closet DRT with each managed by a locally based DRT Manager.

## IMPACT\*

Since DRA started in 2016 we have assisted more than 250 communities across Australia and provided humanitarian aid and disaster recovery to 3 countries.

**25**  
disaster recovery  
operations

**2,798**  
volunteers  
deployed
